EDUCATION

Grado medio - Microcomputer Systems and Networks

Enseñanzas Profesionales Sorolla 2020-2022

Higher Level - Web Application Development (DAW)

Formación Grupo Studio 2022 - 2024

WORK EXPERIENCE - 1 year and 3 months

Full-stack Web Developer - 1 year

Zootropo Studio

- Designed and built web interfaces for both internal projects and external clients, with a strong focus on usability and user experience.
- Collaborated throughout the full development lifecycle of web applications in a professional environment, including testing, deployment, and support.
- Performed maintenance and optimization of web applications, ensuring stability and performance.
- Implemented features in web applications, integrating both frontend and backend.

Front-end Developer (Internship) - 3 months

General ASDE SA

- Redesigned two websites, improving usability and creating a more intuitive user experience.
- Refactored and optimized legacy code, increasing efficiency and enabling new features.
- Developed solutions using HTML, JavaScript, CSS/Sass, and performed database queries and management with SQL.

Personal Web Development Experience

- Developed and deployed Koraw, a web platform focused on art. Took full responsibility for both frontend and backend: designing views, implementing functionalities, and managing database queries securely. The project was deployed on Amazon Web Services (AWS).
- Built several smaller personal projects, covering the entire development lifecycle: design, coding, database integration, and deployment on private servers.

SKILLS

- | | | |
|--------------|-------------|-------------|
| • HTML | • Vue | • AWS |
| • CSS/Sass | • Node.js | • Git |
| • Javascript | • Express | • API |
